

THE VAGINA

A cut through the midline of the pelvis would also cut through the middle of the vagina.

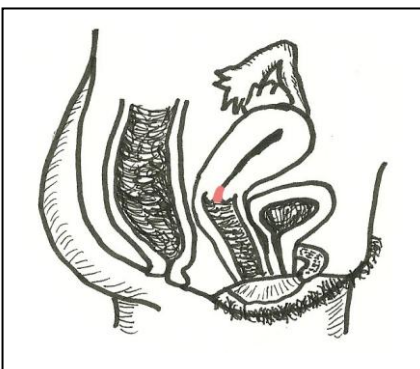

THE UTERUS

A cut through the midline of the pelvis would also cut through the middle of the uterus.

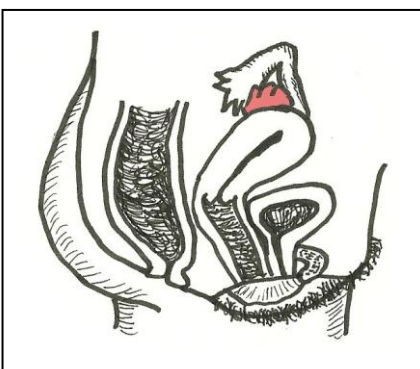

THE CERVIX

A cut through the midline of the pelvis would also cut through the middle of the cervix (lowest portion of the uterus)

THE OS

A cut through the midline of the pelvis would also cut through the middle of the os (the opening in the middle of the cervix).

THE OVARIES

A cut through the midline of the pelvis would cut in between the right and left ovaries. Each half of the body would contain one ovary.
